

# *Civil Rights slam as seen from today*

## *by 3B*

[chorus]

Without schools and rights,  
In the North, in the South,  
Injustice, discrimination  
They started a revolution.

Slaves were victims,  
Judged for the color of they skin.  
But they resisted,  
Not to be separated,  
And they stayed united.

There are black people, who became a  
symbol;  
Rosa Parks, Martin Luther King  
In all the USA, encourage colored people  
To become free citizens  
And created a new nation  
to keep their religion

Change the world, to make a great day for all

We don't need racism, we just need justice.

"I have a dream", that's what MLK said

Why are black people shot because of their skin color?

Change the world, to make a great day for all;

We can stand up, to cry out for justice.

Injad, Lola

Martin Luther King mentioned segregation  
Black and white people on the same bus  
but separated.

Legend, here we go again.

Black people were easy to hate,  
difficult to love for white people  
in the past.

Julien, Bastien

MLK on that day,

spoke "I have a dream today".

Today, we stand up to cry "Justice for all".

Justice for all.
